PERRY'S.

We are having the positive assurance of purchase that you appreciate our line of Parasols. That is the kind of indorsement that speaks the true state of popular opinion.

Of course, it is just what we expected. We never go about these matters blindly. We never trust to stumbling across the proper styles. We know just where to go to find them. We have the privilege of confining to our exclusive showing most of the selections we make. And we make those selections from the assortment of the leading Parasol makers in the country-where nothing is to be seen but fresh, fashionable styles-the styles that make the fashion.

Once in our hands-then we play the important part to everybody-marking the prices. We shut our eyes to every consideration save quality. What worth says they are worth we mark them-no more.

This is one of the "Greater Store's" traits-measure for measure-value for value.

It really is the most attractive collection we have had in seasons. The new shades that have come into favor have been liberally applied, and the clever combinations that these masters of the art have made give variety and richness.

All the choice things were not in when we made the opening announcement last week. Later arrivals have added strength to the bestness of the offerings.
